

Student-Athlete & Parent/Legal Guardian Concussion Statement

Because of the passage of the Dylan Steigers' Protection of Youth Athletes Act, schools are required to distribute information sheets for the purpose of informing and educating student-athletes and their parents of the nature and risk of concussion and head injury to student athletes, including the risks of continuing to play after concussion or head injury. Montana law requires that each year, before beginning practice for an organized activity, a student-athlete and the student-athlete's parent(s)/legal guardian(s) must be given an information sheet, and both parties must sign and return a form acknowledging receipt of the information to an official designated by the school or school district prior to the student-athletes participation during the designated school year. The law further states that a student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from play at the time of injury and may not return to play until the student-athlete has received a written clearance from a licensed health care provider.

Student-Athlete Name: _____

This form must be completed for each student-athlete, even if there are multiple student-athletes in each household.

Parent/Legal Guardian Name(s): _____

We have read the *Student-Athlete & Parent/Legal Guardian Concussion Information Sheet*.

If true, please check box

After reading the information sheet, I am aware of the following information:

Student-Athlete Initials		Parent/Legal Guardian Initials
	A concussion is a brain injury, which should be reported to my parents, my coach(es), or a medical professional if one is available.	
	A concussion can affect the ability to perform everyday activities such as the ability to think, balance, and classroom performance.	
	A concussion cannot be "seen." Some symptoms might be present right away. Other symptoms can show up hours or days after an injury.	
	I will tell my parents, my coach, and/or a medical professional about my injuries and illnesses.	N/A
	If I think a teammate has a concussion, I should tell my coach(es), parents, or licensed health care professional about the concussion.	N/A
	I will not return to play in a game or practice if a hit to my head or body causes any concussion-related symptoms.	N/A
	I will/my child will need written permission from a licensed health care professional to return to play or practice after a concussion.	
	After a concussion, the brain needs time to heal. I understand that I am/my child is much more likely to have another concussion or more serious brain injury if return to play or practice occurs before concussion symptoms go away.	
	Sometimes, repeat concussions can cause serious and long-lasting problems.	
	I have read the concussion symptoms on the Concussion fact sheet.

A Fact Sheet for **ATHLETES**

WHAT IS A CONCUSSION?

A concussion is a brain injury that:

- Is caused by a bump or blow to the head
- Can change the way your brain normally works
- Can occur during practices or games in any sport
- Can happen even if you haven't been knocked out
- Can be serious even if you've just been "dinged"

WHAT ARE THE SYMPTOMS OF A CONCUSSION?

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Bothered by light
- Bothered by noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion
- Does not "feel right"

WHAT SHOULD I DO IF I THINK I HAVE A CONCUSSION?

- **Tell your coaches and your parents.** Never ignore a bump or blow to the head even if you feel fine. Also, tell your coach if one of your teammates might have a concussion.

- **Get a medical checkup.** A doctor or health care professional can tell you if you have a concussion and when you are OK to return to play.
- **Give yourself time to get better.** If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a second concussion. Second or later concussions can cause damage to your brain. It is important to rest until you get approval from a doctor or health care professional to return to play.

HOW CAN I PREVENT A CONCUSSION?

Every sport is different, but there are steps you can take to protect yourself.

- Follow your coach's rules for safety and the rules of the sport.
- Practice good sportsmanship at all times.
- Use the proper sports equipment, including personal protective equipment (such as helmets, padding, shin guards, and eye and mouth guards). In order for equipment to protect you, it must be:
 - > The right equipment for the game, position, or activity
 - > Worn correctly and fit well
 - > Used every time you play

Remember, when in doubt, sit them out!
